It is extremely important that you use a lease agreement between lessor and lessee to protect the interests of both parties and to clarify the terms of rental.

The standard lease covers most eventualities and you can add or remove clauses as required and protects both parties interests.

## 6. Inventory

It is important that you take an inventory check preferably with photos showing condition of rooms and furniture, artefacts etc... This to be given to the tenant to sign on arrival, agreeing to the current condition of the property. Any damage caused can then be easily proven at check out and damage costs deducted from the security deposit.

## 8. Tips for renting out

### **Broker terms**

Going with the broker that offers a smaller fee for a successful rental sale is false economy! We all have costs and how can a broker successfully market your property if he makes a very small margin? This means they are not spending money on marketing because they do not have the budget!

### **Establishing a Price**

Consider what you paid for the property, how long you have lived there, local comparable property prices, any improvements added, present condition of the property, ask about the current property climate, and arm yourself with the facts. By not establishing a realistic price from the beginning, many home renters end up costing themselves due to no rentals by asking an unrealistic rental price.

Do not over price the property thinking you can wait and are not in a hurry to rent out as this has the opposite effect. The buyer sees other comparable property and goes elsewhere.

The value of a home is determined by supply and demand. If there are a lot of sellers and few buyers, prices tend to go down and homes take longer to sell/rent. This is referred to as a "Buyers market". But when the opposite is true, and there are many buyers but few homes for sale, prices will rise and homes will rent quickly - this is known as a "Seller's market." So how do you know which market you are currently in? It is best to ask the knowledge of a professional. We can provide a valuation appraisal If you list with us we provide this as part of our service charge. We will then determine which type of market you are closer to; then study your location to compare your home to others based on style, size, number of bedrooms, baths, garage, pool, view, and plot size.

## Signage

Allowing the broker to erect a sign is very important as our brand name and reputation may draw in the passer by as they understand we are a professional company and can assist with the buying process and represent their interests. It also avoids visits without appointments and time wasters as we are the first point of contact and will vet them first and arrange an appropriate time convenient to you. **Putting up your own sign is counter productive and not permitted for an exclusive listing.**

**Rental payments** – Ensure you advise the lessee at the outset where you wish to be paid inside or outside of Thailand.

## 9. Preparing your house for rent

1. It should always be available at short notice for viewings. If inconvenient leave a key with the broker. Remember the buyer/renter has little time here and lots of other property to see so you must co-operate or potentially lose a sale or tenant!
2. Best not to be at home when the broker visits with the buyer/renter or make yourself scarce, otherwise the buyer/renter feels as if they are intruding and not be able to visualise living there. If you are asked to show them around ensure you leave them after in privacy to talk together and look around.
3. First Impressions – Buyers/renters arrival and first view is often the most important, so make sure the exterior of the property is up to standard, garden up kept, lawn mowed, gutters cleaned, windows clean etc.
4. Interior tidiness- ensure the house is spotless and all personal belongings are stored away and everything looks shipshape e.g. toys, clothes, magazines, shoes put away etc.
  5. Room Airing - Rooms not used regularly should be aired and use some potpourri or something natural to take away any smells.
  6. Pets - Lock them away prior to any visit and do not involve the buyer/renter with them as not everyone is a pet lover and they are a distraction. Also remove pet food bowls and any visible sign of habitation where possible especially smells.
  7. Lighting - turn on all interior lights even in daytime as this makes everything appear bigger and more appealing.
8. Paint work - A lick of paint can work wonders and it pays to refresh the look of the property prior to resale as well as mending any cracks and putting the property in the same condition as when it was new.
9. Rubbish - remove bathroom and kitchen rubbish to avoid lingering smells.
10. The buyer/renter may wish to ask further questions and you should be available at short notice to answer them.
11. Plants - Greenery livens up a room and some well placed plants can be beneficial.

12. Make clear what charges are included in the rental price such as gardener, cleaning, phone line and what is NOT included such as electric, water so there can be no misunderstandings.
